Le Wagon Coding Bootcamp | Bali | 2022 April - June

### Exchange Student

Université Paris-Est Marne-la-Vallée | Paris | 2014

### Bachelor of Art Management

National Taipei University of Education | Taipei | 2011

## Interests

## Professional Experience

### Frontend Developer (Freelance Project)

It's Complicated, Berlin(Remote) | October 2024 – April 2025

*A therapy matching platform built by psychologists, connecting clients with 2,500+ therapists across Europe and online.*

- Built a B2B therapist platform dashboard with React, Next.js, and shadcn/ui for HR clients.
- Developed interactive data visualizations (bar charts, pie charts, heatmaps) to track sessions booked, popular topics, participant trends, languages, and time slots.
- Implemented key dashboard features: session table, resource library, employee invitations, and access code management.
- Integrated frontend with PostgreSQL-backed APIs, ensuring accurate and seamless analytics display.

### Junior Ruby on Rails Full-Stack Developer (Apprenticeship)

Viridad, Vienna (Remote) | June, 2023 - August, 2023

*A startup developing software to help companies improve sustainability and compliance.*

- Built and maintained UI components for a Ruby on Rails application using HTML, CSS, JavaScript, and ViewComponent.
- Debugged and fixed application issues across frontend and backend layers.
- Designed and executed end-to-end tests to ensure functionality and user experience.
- Collaborated with the team using Figma for prototyping and user research.

### + 6 YEARS OF EXPERIENCE IN PROJECT MANAGEMENT IN THE ART CONSULTING INDUSTRY

Motif Art Investment, Taipei | 2014 - 2021

## Tech projects

### DISTRIBUTE AID (OPEN SOURCE CONTRIBUTOR)

Frontend Developer | 2024 - present

*Distributed Aid is a global open-source project founded in 2018 that delivers humanitarian aid across Europe through smarter logistics.*

- Contributed to responsive redesign, migrating components from Tailwind CSS to Radix UI to improve accessibility and maintainability.
- Refactored existing UI components with Radix UI to integrate dynamic datasets into the frontend
- Collaborated via GitHub PRs and code reviews within an international open-source community
